

Corporate membership in the GBM

The **German Society for Biochemistry and Molecular Biology (GBM e.V.)** is the largest life science society in Germany with about 5,000 members from biochemistry, biology, chemistry, physics, pharmacy and medicine.

Renowned conferences with top speakers (**Mosbacher Kolloquium; GBM Fall Conference**) are a signature of the GBM.

The GBM has also actively developed into a gathering place for researchers from the field of applied research and industry. The strong participation of GBM in symposia on applied research at the *analytica conference* as well as application-related topics at the GBM conferences prove this development.

19 topic-related study groups with their own meetings promote networking and scientific exchange through annual meetings and small conferences.

The journal **BIOspektrum** provides an excellent overview of research and perspectives in the life sciences in Germany.

In the meanwhile 30 **Junior GBM** local groups young members from students in the first semester up to PhD students are organized. About 1/3 of the members are young members.

In the **Young Investigators** working group, young scientists from postdocs to junior professors implement exciting projects.

We would like to further strengthen the role of companies in the GBM. With our offer we want to make our corporate members real partners of the GBM:

Your benefits:

- You reach your target audience/customers/potential employees/young investigators through access to GBM networks (e.g. Junior GBM, Young Investigators Working Group, Study Groups);
- Company delegates are offered reduced participation fee at GBM meetings; This way both, company and employees, can participate in networking and become an integral part of a strong community;
- Your logo will be presented on the GBM website;
- Image gain for companies: Visible commitment to the promotion of life sciences and support of young scientists;
- Discount at industry exhibition/sponsorship at GBM meetings;
- Participation in framework events of our Mosbacher Kolloquium are possible for corporate members;
- Job offers can be placed free of charge on the GBM website and on the website of our member journal BIOspektrum;
- Under certain conditions, GBM social media channels (Twitter, LinkedIn; Instagram) can be used for news;
- Joint events with young scientists, lectures on industry-relevant topics and others are possible by arrangement;
- Your company can deduct the membership fee for tax purposes.

Fees for corporate members:

- Start up - 250 €
- SME - 1000 €
- Company - 2500 €
- Sponsoring company - by arrangement
- Public and non-profit institutions - 500 €

In addition, companies have the opportunity to become sponsors of the GBM:

Sponsors are presented and linked directly on the website of the GBM.

Sponsors have the opportunity to present their company at GBM conferences at special conditions.

We will be happy to work out an individual concept for cooperation with you.
